

Instructions to the authors

BASIC INFORMATION

The journal *Arquivo Brasileiro de Medicina Veterinária e Zootecnia (Brazilian Journal of Veterinary and Animal Science)*, ISSN 0102-0935 (print) and 1678-4162 (on-line), is bimonthly published by the FEPMVZ Editora. The journal publishes original scientific papers in the areas of veterinary medicine, animal science, technology and inspection of animal products, and related ones.

Manuscripts will be submitted to reviewers and will be returned to the authors for final editing according to the suggestions of the reviewers. Accepted scientific papers become property of *Arq. Bras. Med. Vet. Zootec.*

The authors are entirely responsible for all data, concepts, and information contained in the articles.

Reproduction of the published paper: reproduction of any published article is allowed only if the paper is cited. No commercial uses of the results are allowed.

The submission of articles will be only done by the on-line system <www.abmvz.org.br>.

TYPES OF PAPERS ACCEPTED FOR PUBLICATION

Original research paper. This is a complete account of an experimental study. It is based on the premise that the results are the consequence of the research. Elements of the main body of the text: Introduction, Material and Methods, Results and Discussion, and Conclusion; Abstract should be provided in both English and Portuguese languages.

Case or Field Report. Relates particularly to medical areas in which an immediate report are more important than a full treatment of the subject, or publications in which the results are not planned. Elements of the main text: Introduction, Case Description, Discussion, and Conclusions (when applied). If text is in Portuguese, an Abstract in English should be provided and vice-versa.

Short Communication. This is a brief report of partial results of experimental work, worthy for publication, although insufficient or too inconsistent to constitute a scientific article. Surveys of data (occurrence, diagnosis, etc.) also fit in here. It must be concise with a maximum of four printed pages, without the distinct headings of formal papers, but following the same order.

PREPARATION OF MANUSCRIPT FOR SUBMISSION

Papers should be submitted either in English or Portuguese. For English spelling use the *Webster's Third New International Dictionary*.

Text Format and Files: The electronic file (.doc) should be formatted to Microsoft Word, Type all pages to A4, with 3 cm margins, Times New Roman source 12, continuously and without formatting, space 1.5 between lines, with numbered lines and pages. Do not exceed 15 pages.

Manuscript Sections

Title. In both languages, English and Portuguese. Do not exceed 100 characters.

Author names. Should be listed below the title. Follow each name with exponents in Arabic numerals to indicate affiliations. Affiliations should be listed below the author names and in numerical order. Corresponding author should be listed next with complete mailing address, phone and fax number, and email address

Abstract and Resumo. Each one with a maximum of 200 words. State clearly the purpose of the work, indicate the methods used and summarize conclusions.

Keywords and Palavras-chave. Maximum of five keywords.

Introduction. This section should provide background information leading up to the hypothesis tested. The section should end with a very brief statement of the objectives of the work.

Material and Methods. Should include the design of the study, type of materials involved, number of animals per group, a clear description of all methods used and/or clear references to published methods, and the type of analysis used. Do not use subtitles. Bioethics and Biossecurity Committee Approval is required when animals and genetically modified organisms are involved.

Results. State clearly and objectively the main results found.

Discussion. The discussion should be focused on the results found.

Obs.: The sections Results and Discussion may be combined.

Conclusions. It is recommended that the main conclusions supported by the research data be stated.

Illustrations. All Tables and Figures. Any illustration previously published elsewhere should bear, below its title, the source (author identification, and date), with the corresponding complete information listed in References.

Tables. Alphanumerical data arranged in lines and columns define a table. Only horizontal lines area allowed to enhance headings and end of a table. The table legend, at the top, must receive initially the word Table, followed by its number in Arabic numerals and referred to in the text as Table.

Figure. Any illustration that contains line drawings, photographs, graphics, schemes, fluxograms etc. They should be sent in separate file with extension .jpg. Titles for the figures should be displayed below them starting with Figure Arabic number, and then complete title. In the text refers to the figures in the numerical order that they are listed; i.e., Fig. 1, Fig. 2, Fig. 1-2, etc.

Acknowledgments. Should be briefly expressed.

References. The references should be listed alphabetically.

Citations

Citations should be in accordance with ABNT/NBR- 10520 of 2002. In the text, the reference is cited between parentheses to avoid interruption in text reading as follows:

- one author: (Silva, 1971) or Silva (1971)
- two authors: (Lopes, Moreno, 1974) or Lopes & Moreno (1974)
- more than two authors: (Ferguson et al., 1979) or Ferguson et al. (1979)
- more than one paper cited: Dunne (1967), Silva (1971) and Ferguson et al. (1979) or (Dunne, 1967; Silva, 1971; Ferguson et al., 1979), always following a chronological order.

Citation of citation: Within the text it should be cited the author and the date of the original document followed by **cited by** and year of the consulted paper. Only the consulted paper should appear in the reference list.

Personal communication: References concerning “personal communications” should not be cited in the reference list but should be mentioned in the text. After the information, should be cited Author, Year, Institution, and the expression “personal communication”.

References

References should be presented following the ABNT/NBR-6023 rules. Some examples are given below:
